

CLEARBLUE BLUETOOTH TV/AUDIO LISTENING SYSTEM

If you're turning up the sound on your television loud enough to disturb others, you're not alone.

The ClearSounds ClearBlue Bluetooth TV / Audio Listening System provides the ultimate solution while offering high-fidelity sound that you not only hear but feel and experience.

The ClearBlue Bluetooth TV System focuses on acoustical integrity in a stylish and comfortable design.

It allows hearing-impaired viewers or anyone in your home to hear television programs clearly and without distortion, while allowing you to keep your television's volume at a reasonable level.

Listen to TV, Music and Take Calls with the ClearBlue Bluetooth headset and transmitter.

Enjoy and experience your music by pairing with a Bluetooth enabled audio device and take calls with the push of a button. Your music will pause or your TV program will mute while you take the call and will resume after you hang up.

Connect, communicate and enjoy your favorite television programs with the ClearSounds ClearBlue Bluetooth TV / Audio Listening System.
